PHARMA JOURNAL CLUB

About:

Welcome to journal club, where you may learn and hone your critical evaluation skills, get more exposure to the quickly changing body of medical literature, and support well-informed clinical practice. They encourage peer group discussions to improve knowledge and literature awareness. Students can develop better reading habits and get experience evaluating and critiquing research. They can network and have better conversations with other professionals and students, they can hone their presenting and communication skills, and they can understand how the greatest research may enhance evidence-based.

Objective:

- Acquaint yourself with the latest releases from Pharma Journal Club.
- Get familiarity with the fields and applications of current research.
- To equip professionals with the knowledge and skills necessary to critically read and evaluate publications.
- To support peer mentoring, help practitioners develop their applied clinical research skills, and teach them how to become better debaters and leaders.
- Bring comedy and questions, and distribute (and redistribute) the topics, time, and roles. Bring enough copies of the weekly article and a backup piece for each person.
- Create the project prototype by directing development in the areas of training and educational background.

Importance of student clubs:

The organization plans a variety of events each year. Student clubs offer a forum for communication between members and with external activities. They have the power to ignite young people's passion and aid in the development of their organizational abilities. The clubs guarantee the holistic development of students by offering a healthy mix of work, play, and leisure activities.

The student groups that were established for the 2023-2024 academic year are listed below.

S.no	Name of the club	Program	Faculty Advisor	Student coordinator
1	Pharma Journal Club	Pharm. D	Dr. Anudeep	P. Sai Teja
2	Pharma Science Club	B. Pharmacy	Mr. P.V.Pavan Kumar	P. Srikar Reddy
